RICHARD BALSAMEL

Look with favor upon bold beginnings.

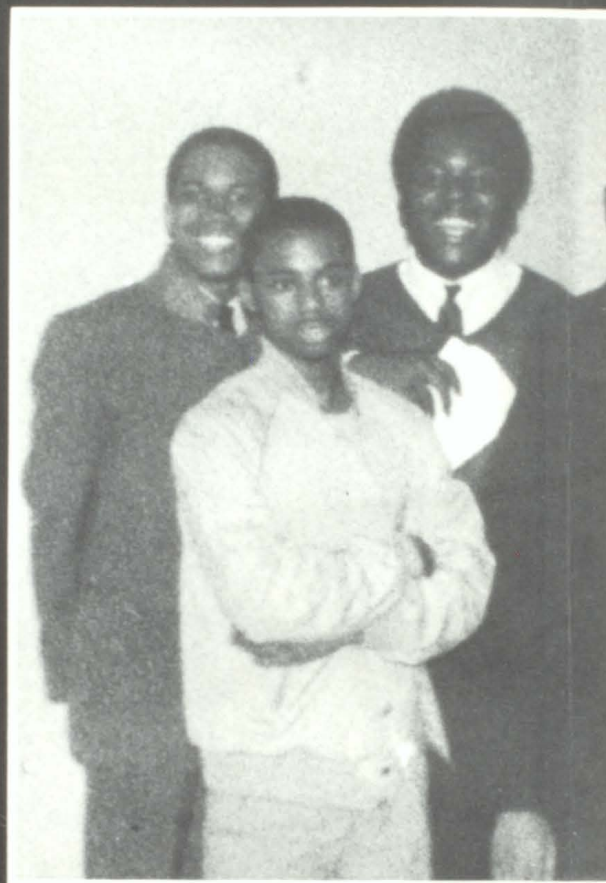

Virgil

**A separate path must now be traveled by each of us.
Together, we have obtained the knowledge and the experience
to endure — to grow — to be.**

**We, the Class of 1980, will be completely subservient to our goals.
We will nourish them.
We will pursue them.
We will reach them.**

We will look with favor upon *our* bold beginnings.

A bold beginning . . .

He who has
begun

done.

CLASS DAY

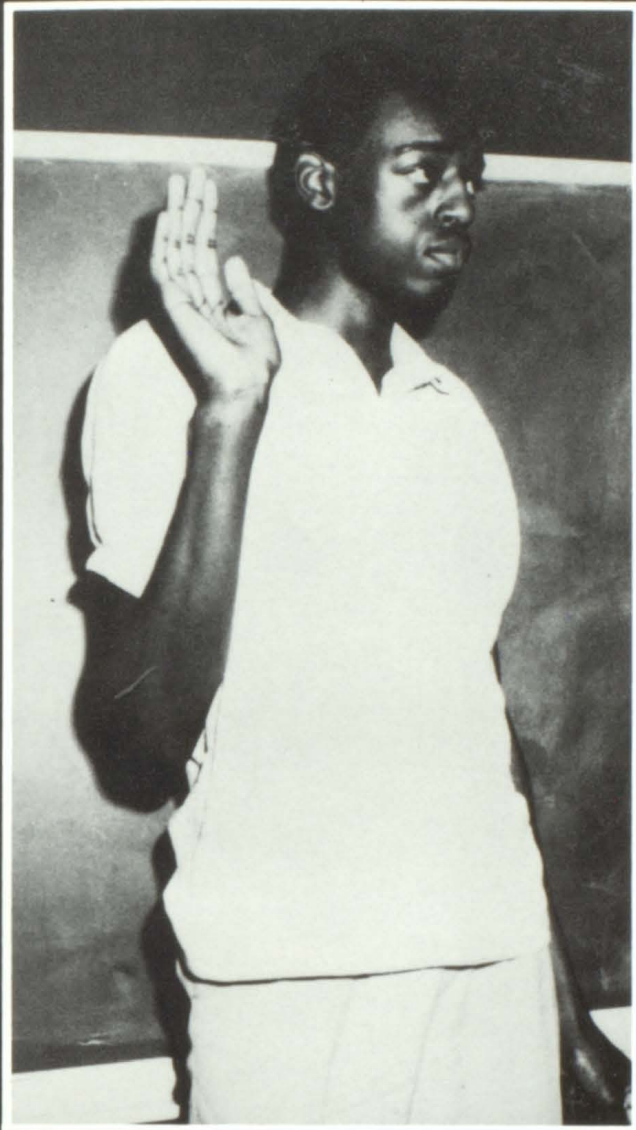

Dare to be wise;
BEGIN!
Horace

The excitement of the moment was captivating. We were anxious to accept the challenge as the Senior class of Science High. The day held great significance for us all; it marked both an end and a beginning.

President-Elect Kenneth Gregory

Anna Cansler, '80 and Donald Graham, '79

**Reason and calm judgement,
the qualities
specially belonging to
a leader.**

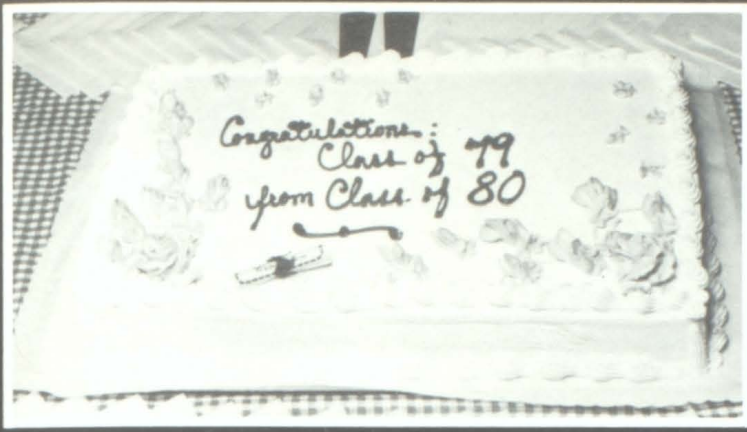

Tacitus

**Leadership passed from the class of
1979 to the class of 1980.**

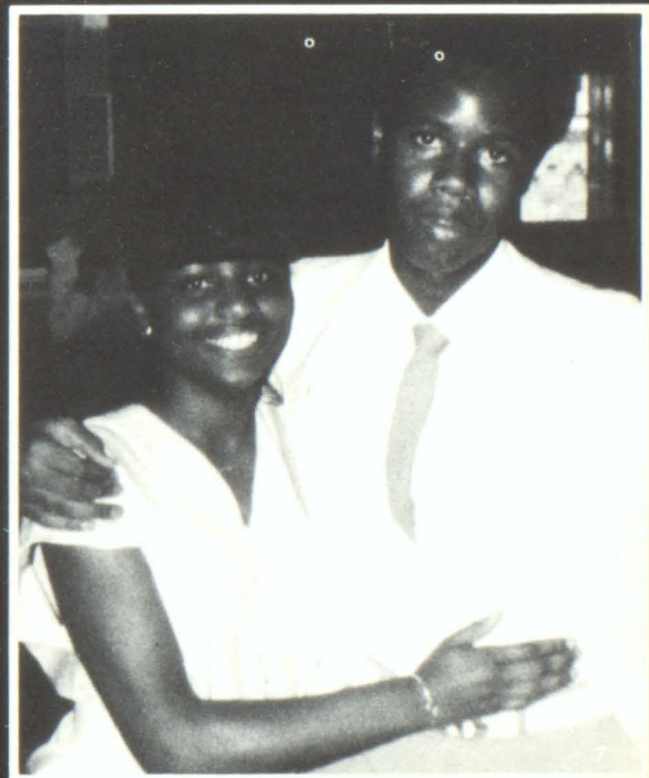

Officially, we were seniors. We were ready to face, boldly,
the coming of a new year . . .

... together.

DEDICATION

Good counselors lack no clients.
Shakespeare

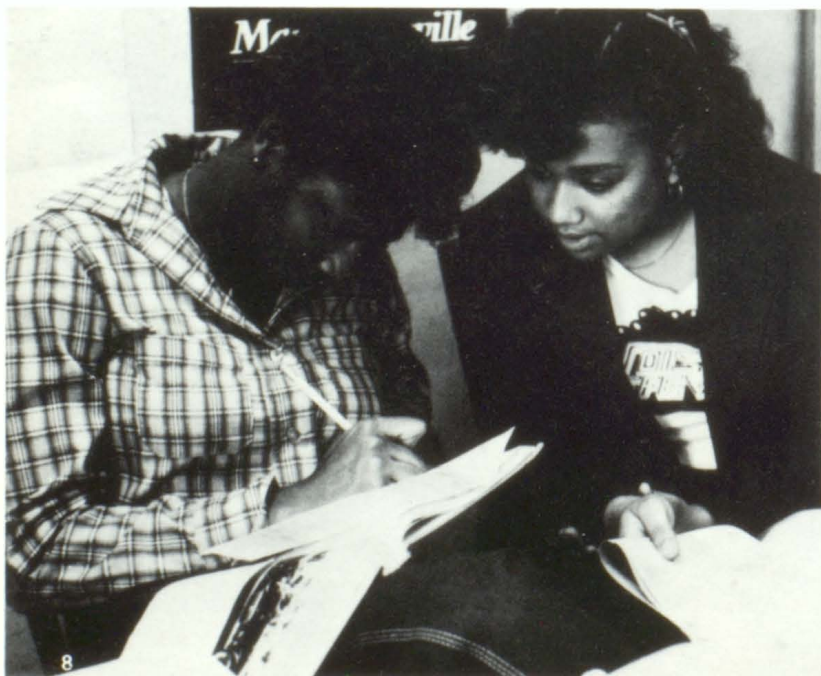

We, the class of 1980, decided to dedicate this yearbook, in its entirety, to a woman whom we all know and bug — Mrs. Hand. She may not have been aware of our appreciation of her presence until the college applications awaiting her review, and the secondary school reports awaiting completion, began to accumulate on her desk.

We sincerely believe that we are fortunate to have such a diverse counselor. Before this school year, Mrs. Hand had become thoroughly acquainted with many of our personalities by teaching science classes and counseling those students that she encountered. For many of us, it was difficult to cope with maturation while simultaneously preparing for a higher education. She often provided aid in the frustrating search for a clearer path to the future.

A COUNSELOR AND A FRIEND.

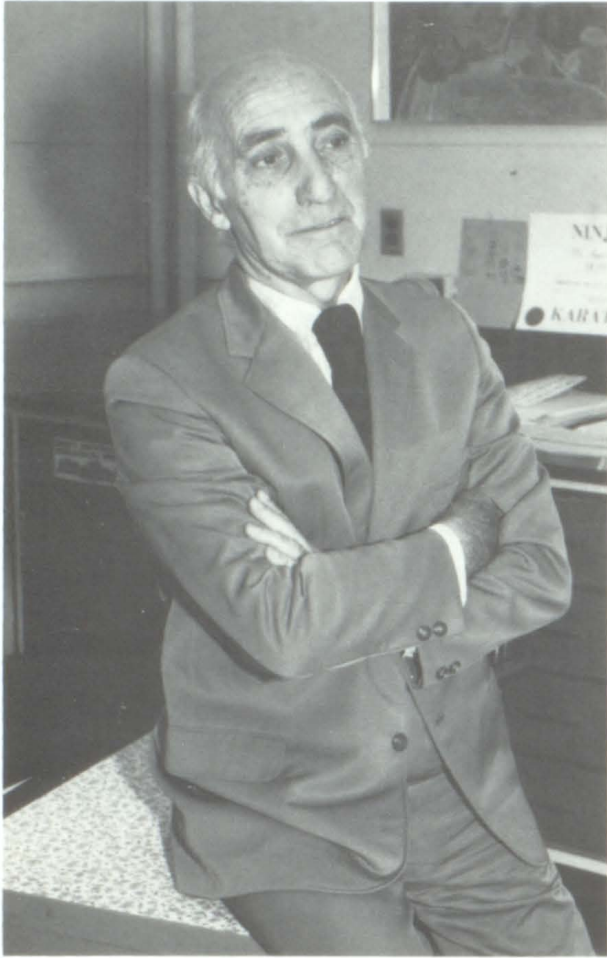

As underclassmen, we focused upon "Joanne's Nut House" as a haven where the ambiance was not totally academic. It became a place where, for once, we determined the atmosphere. The move from the stockroom, to the second floor, and finally to the third floor, never changed the feelings we've shared. Her space has been our space, too.

... I see

Longfellow

In measuring our past, the name Robert Celiano resounds. He is a Renaissance man who has mastered the art of teaching. Our freshman year was his first year as a teacher at Science High. That year, many of us were fortunate enough to have him as either a Science or English teacher. As Juniors, he taught us History; as Seniors, French III.

Mr. Celiano is a very special man, especially to the class of 1980. He is the most devout supporter this class has ever had, whether in our class activities or just our individual efforts. Through his knowledge, he has given us strength; through his compassion, he has given us hope. Through his existence, he has created the love in our hearts that we feel for him.

Goodbye will be hard for us to say.

CLASS OF 1982

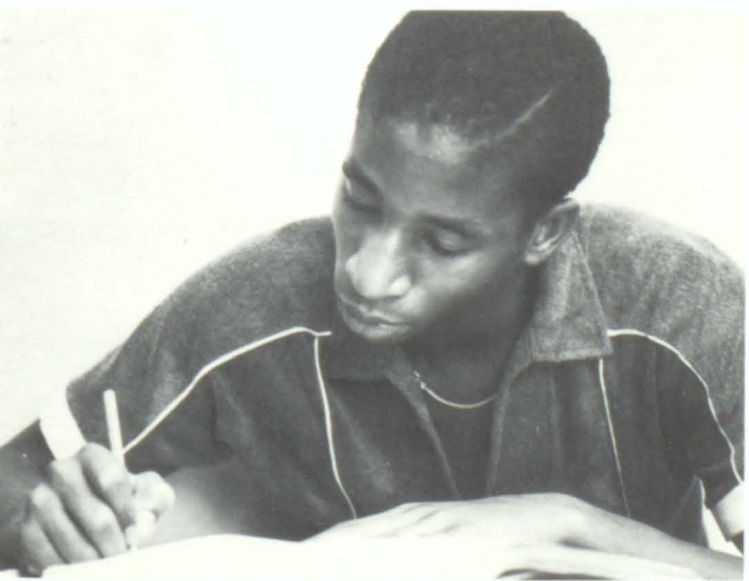

Familiar with most faces ... never lost ... realizes individuality but remains part of the group ... matured ... academic standing considered ... friendships are defined ... Mr. Korzennik ... more responsible ... no longer apathetic ... another year of walking to the Y regardless of weather ... last mandatory year of a foreign language ... some status, relatively ignored by upperclassmen ... what is Integrated Science? ... looking forward to Junior Year ... boys begin to develop facial hair ... suffocated by work ... first crack at PSAT's ... no longer enthused with "high school" ... not enamored with the Senior Class ...

Andrew Carnegie

The philosophy which is so important in each of us is not a technical matter; it is our more or less dumb sense of what life honestly and deeply means. It is only partly got from books; it is our individual way of just seeing and feeling the total push and pressure of the cosmos.

Impatiently awaiting the passing of this year ... popularity flourishes ... more atuned to the environment ... attention is focused sharply on the future ... to college?, or, not to college? ... anticipation or graduation ... more united as a class ... identity discovered ... rough edges have smoothed over considerably ... an alliance with Mr. Racaniello ... constantly reviewing the past three years ... defeated by seniors in intramural sports ... The activities on this page, whether backgammon in study, sculpture in art, singing in chorus, or conferring over an assignment, signal the beginnings of the relaxation from the toll of three years of hard work.

PHYSICAL EDUCATION AT THE “Y”

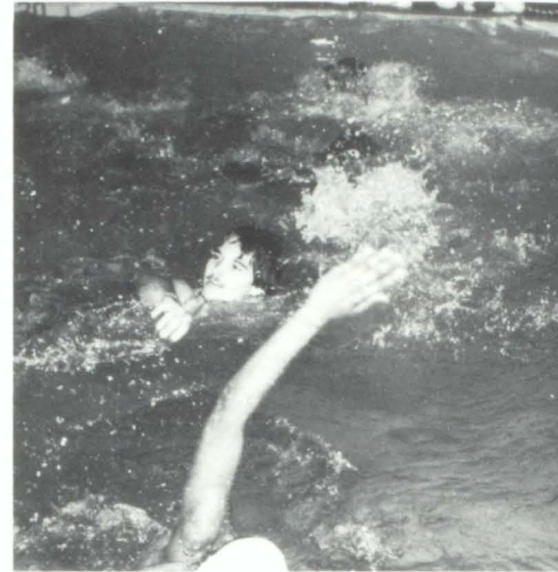

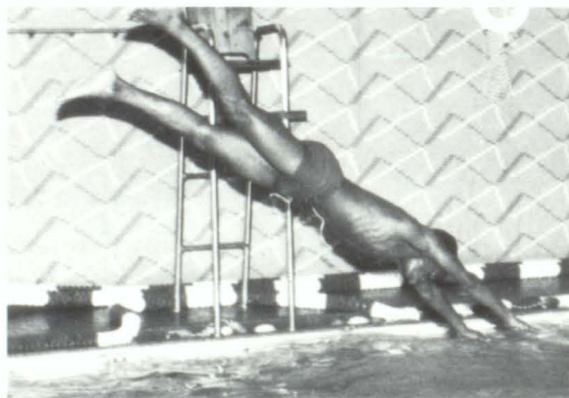

Phys. Ed. at the "Y" brings together students from every class. It's a decisive break from the strictly academic pursuits at the other end of Rector St. For this reason it is more often than not — the exception is always inclement weather when the trek is literally an expedition — a place to enjoy.

SWIMMING

The Swimming program, under the direction of Ms. Joanne Bopp, utilizes the pool at the Y each day during the fourth period. Students wind up with the course by chance in their schedules. It's not uncommon to have accomplished swimmers, beginners, and non-swimmers in the same class. Learning becomes a shared experience with the excitement of accomplishing one's goals which are apparent to everyone.

THE CHAMPIONS: T.K. ALL STARS

Not shown: Terry Barrett, '80 and Captain Tracy Speights, '79 (Livingston College, '83).

JEFFREY BALLIN
ADVISOR AND UMPIRE

Softball began last spring as an organized intramural activity. Teams were developed by the students. Four teams competed weekly to determine a champion. The T.K. All Stars finished the season with a nearly perfect record.

Mr. Ballin did a commendable job in organizing the activity and giving so freely of his time. The sport was one that drew a lot of spectators and created spring afternoons for just getting together. The last day of the season was set aside for competition with the faculty, who lost to a strong student team.

ALPHA 4: Ed Howard, Reggie Burton, David Crawford, and Ron Taylor.

SCIENCE HIGH IN CENTRAL: Standing: Ed McCathern, Deborah Kemp, George Chambers, Colette Ward, Joe Strickland, Rohan Dennis, Ben Smith. Kneeling: Reggie Burton, David Crawford. Not Shown: Ed Howard.

REGGIE BURTON

Whether in Cross Country or Indoor Track, Science High has been the keystone of the Central track seasons. In Cross Country, Central placed 3rd in the City, 5th in the County, and 7th in the State. Indoor Track resulted in a second place finish in the state relay championships, the Bronze in the 2 mile relay (Howard, Burton, Chambers, Crawford), the Gold in the sprint medley (Strickland, Crawford, Simmons, Stradford), and the Gold in the mile relay (Simmons, Burton, Chambers, Strickland). Please note that there were *only* two Central Students.

FIFTH QUARTER by LLOYDE GUCKEN

... that ended Thanksgiving Day with a 30-6 victory over City League rival East Side.

Central's first touchdown came on a 35-yard pass reception by *GAVIN CAVE* — thrown by Juan Gautreaux...

Then, on the second play of a drive, Gautreaux connected with *DARRYL WILLIAMS* in the flat and the play went 65 yards to a TD.

The fourth touchdown was a 23-yard pass from Gautreaux to *CAVE*.

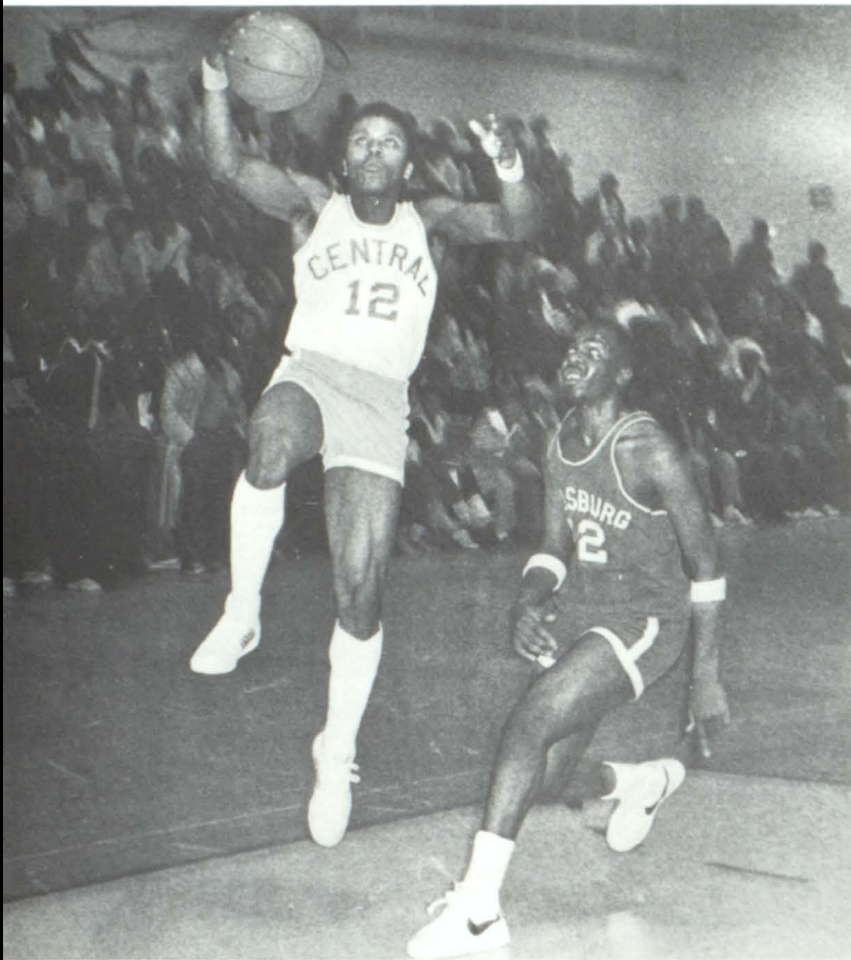

With the mention of Science High School, an invincible academic record is the first thought in anyone's mind. Alas, a school does not gain recognition solely from these achievements.

With the mention of sponsored athletics at Science High, all minds draw a blank and the facial expressions relay feelings of stupor. 'Tis a sad story, that of the athletic affiliation of Science High with Central High School. Despite the quantity and quality of the participation of Science High students on Central's teams, our beloved school does not receive the recognition due.

We certainly hope that in the future, this matter does not continue to go unnoticed by those officials who could effect a change. This year, we are pleading for recognition of *our* students' participation in Central's sports. Once this request is satisfactorily fulfilled, we will ask for our own teams.

WE SHALL BE HEARD.

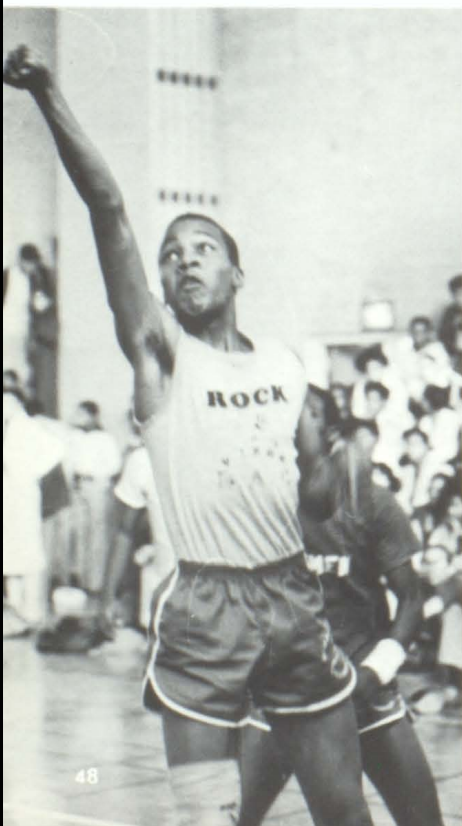

BASKETBALL

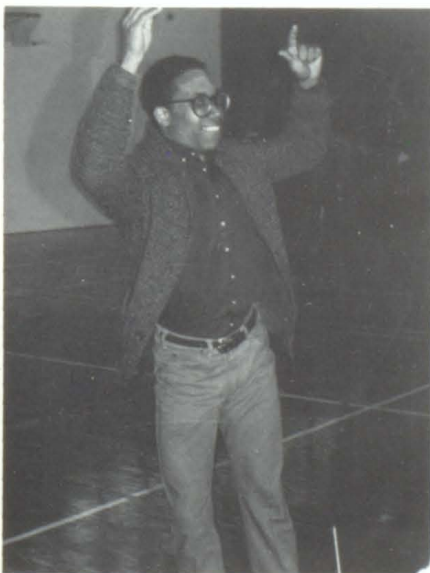

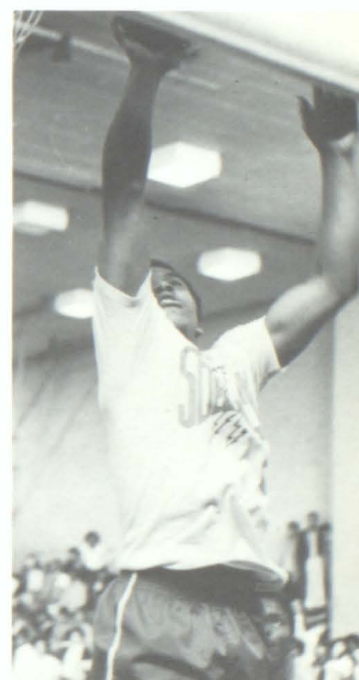

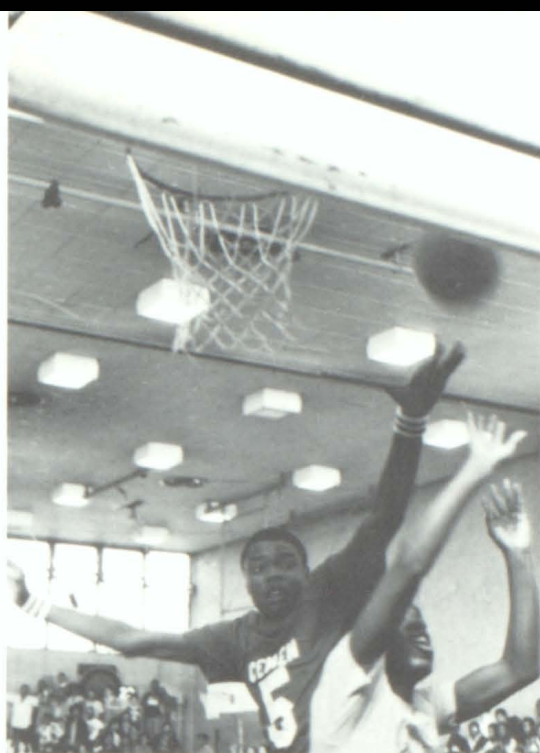

GREG SPANN, for a layup, at Central, for Central.

The Bomb Squad, which represented the Class of '80 for four years, jelled into a mighty adversary on the court. Star players included Greg, Van Thompson, Keith Dowdell, and Gavin Cave. An outstanding bench provided a margin for victory.

The competition for these men should have been interscholastic, not just intramural. Even without it, the roar of the crowd proved that spirit is alive and well at Science High. Although the records show that the Senior team always wins, the Juniors kept the game exciting. Mr. Ballin coached the Seniors; Mr. Levy, the Juniors. Mr. Barrone and Mr. Price had their fitness tested as referees.

MASQUERADE DISCO

Devils, mummies, and fairies alike, all came down to the Trinity Cathedral gym to groove to the beat of the music in celebration of Halloween. Whether mummified, in pampers, in togas, or from their grandparents' closets, the community of characters made this affair a success.

"We are fam-i-ly."

FROM RAGS . . .

Hard to believe that dress could degenerate into a day like this, but it did. Some people thought that we were on our way around the corner.

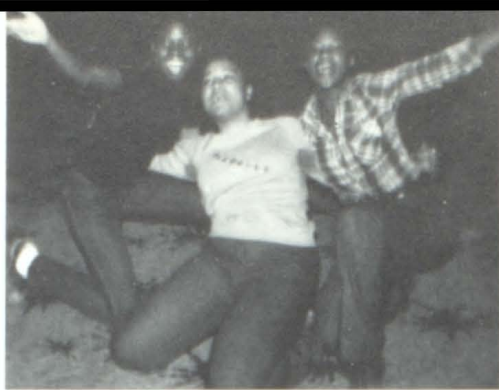

... TO RICHES

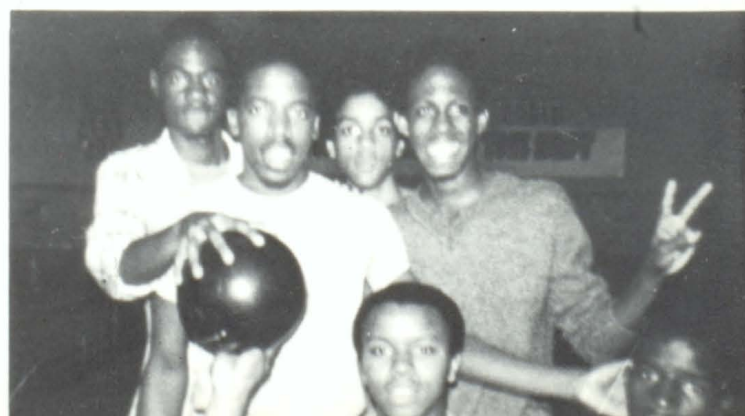

Who would believe such glamour and fashion existed at a science high school? Strutting across the stage, the models made believers out of everyone at the Winter Extravaganza held at the Louise A. Spencer auditorium in December.

BOWLING PARTY

In 1978, students from Science High used a day off from school to regroup at Parkway Lanes. Beginners, intermediates, and advanced bowlers attended and enjoyed themselves. The following year, same place, same group, bowled again. Being camera shy has never been a problem. Hey Maggie, we remember you!

NAJEEBAH ABDUL-MUSAWIR

When something good happens to you, it comes from Allah. When something bad happens to you, it comes from yourself.

Najeebah seeks only to find her place with Allah; this is her sole objective in life. She enjoys acting and dancing and her after school activities include an affiliation with a local arts company. If surprised, Najeebah's favorite expression is, "Oh, my goodness!" Although she prefers a warm climate, Najeebah has spent her high school years in Boston and Newark. Her friends here include David, Renee, Jackie, Mr. Ferrand, Fatimah, Anthony, Mr. Balsamel, Rrohaund, and Hector.

Where she is, you are bound to find Debra, Keat, Deborah, Patti, Terry, and Anna. Michelle's favorite activity is quite mysterious and can only be described by the code letters: R.S.V.C. Mick is identified with THE Clique, yet her individualist is a hallmark of her character.

Chorus 9; Guidance Office Staff 10, 11; Voltage 11, 12; Planning Committee 11; Graduation Committee 12; Cornell University, Advanced Placement 12; '80 Synergist, Editor-in-Chief, 12.

ANITA RICHARDSON

Nita

Anita's goal is to become a dental technician, a career for which she has begun preparation at COED. She prefers to stay home, her favorite location, or to venture outside on her bike. Find Sharron or Ray and you will find Anita, usually in the auditorium after a morning of classes at COED. If you hear her say, "Girl, please!", you can safely conclude that the gist of the conversation is amusing.

Chorus 10; Band 10; COED 10, 11, 12.

MARQUITA RICHARDSON

Keat

Unto the noble everything is good.

Euripides

Keat is interested in the biological sciences, which will be her major in college. She says that her favorite location is Jeanne's office, but we see her in the second floor lounge an awful lot. Her favorite expression is, "Truly;" her favorite activities are volleyball, softball, and R.S.V.C. She can always be found in Steve's company or with THE Clique: Deborah, Mick, Debra, and Patti; Kay, Anna and Terry. We will remember her most for her consistent attitude, her gentility, and her unfailing ability to look the way she does every day.

Student Council 11; Planning Committee 11; Fashion Show 11; Graduation Committee 12; Secretary, Class of 1980, 12.

GINA DENISE ROGERS

Puddin

Every man has three characters: that which he exhibits, that which he has, and that which he thinks he has.

Gina wants to be a Legal Assistant. We will remember Gina most of all for her personal warmth. She's constantly asking, "What do you want?" in an effort to be interested in everyone; and, the interest is reciprocated. Her favorite location is Mrs. Hand's office, on the return from COED. Gina enjoys sewing, dancing, and "almost everyone's" company.

FBLA, Treasurer 12.

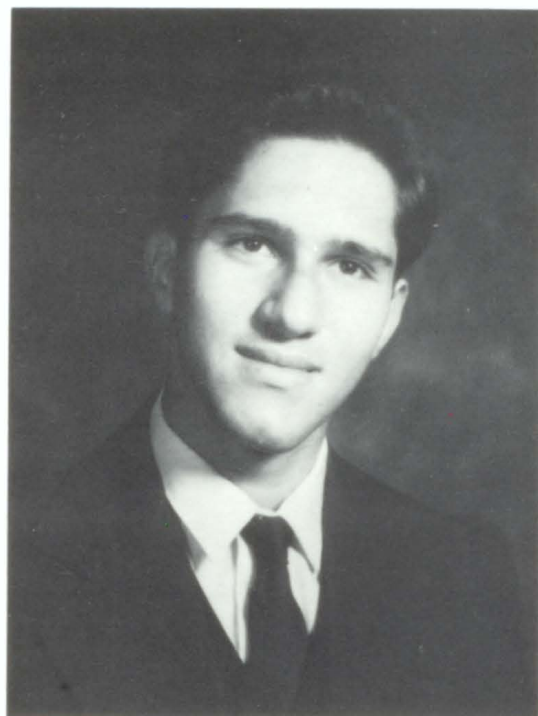

JAMES JOHN ROTHUSER

Jim

It's been four *long* years.

James intends to pursue a career as an aeronautical engineer. He always dreams of being in California playing tennis, a sport he plays competitively. He likes everybody and his favorite expression is, "Hello." Apropos.

Explorers Post 11; Aviation Club 10, 11, 12.

YOLANDA SANCHEZ

Yolie

Love conquers all.

Yolanda would like to some day become the president of a bank. We can always find her in the company of Darlene, Ivette, and Bobby. Yolanda enjoys dancing at the most popular discos. Her favorite expression is "Don't even try it!" Because her favorite location is room 800(?), Yolanda is often hard to find, but at about 10:00, she's usually around the guidance office.

Modeling Club 9; Volleyball 10, 11; FBLA 11; Disco Committee 12.

MILTON SHACKLEFORD

Little Shack

I'm going to reach the top of the ladder!

Milton, since his favorite activity is relaxing, enjoys the company of everyone and as a result cannot be found with any particular person. He plans to be a "well known" fashion designer and tailor. His favorite expressions have a quality of their own: "If at first you don't succeed, then try, and try again; but, stop if you get tired."

Guitar Club 9; Variety Club 9; Aviation Club 9, 11; Chorus 9, 11; Aspira 10, 11; Track 10; Explorer's Club 10, 11; Softball 11; Voltage 11; COED 11; Drama Club 12; Modeling Club 12.

DEBORAH DENISE SHELTON

Deb

I call my friends those before whom I may think aloud.

Deborah would like to become a biologist. Her favorite activities (in order) are R.S.V.F., volleyball, and softball. She can always be found in Jeanne's office or the second floor lounge. Those closest to her know that her usual expression is, "Get outta here!", to just about anything anyone says. Deborah, usually in tandem with Keat, also shares her time and humor with THE Clique: Mick, Patti, Debra and Keat; and Kay, Terry, and Anna.

Variety Club 9; Engineering Club 10; Student Council 11; Planning Committee 11; Fashion Show 11; Graduation Committee 12.

VIRGINIA GAY SHEPHERD

Ginger

Virginia is an "I'm serious" person who is often seen in Mrs. Hand's office. Her ambition is to continue her education in the field of science to become a programmer. Virginia is one of those few individuals who gets along with everyone, as her friends, Bertha, Demetra, Esther, Louethel and Francine, can testify.

Volleyball 10; COED 10; Explorers Post 11; Art Club 11, 12.

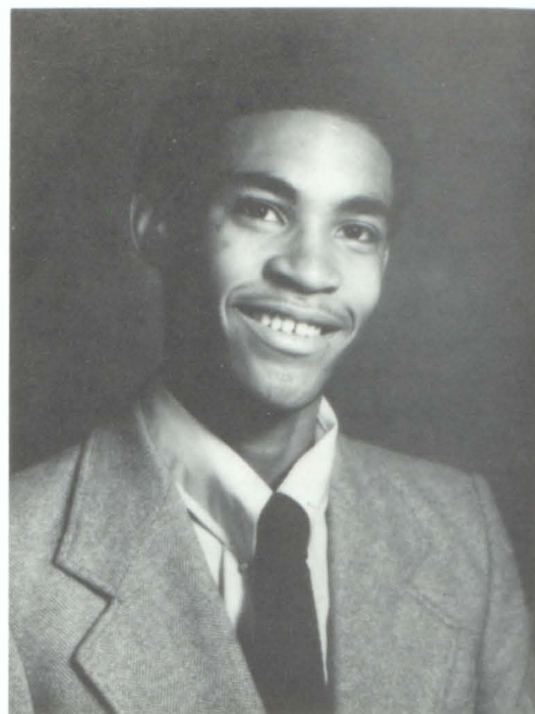

WALTER SCHIRRA SIMMONS

Walt

May God grant you the serenity to accept the things you cannot change, the courage to change the things you can, and the wisdom to know the difference.

Walter can be found in Ms. Oppel's office, "checking out the *Times*." His current mission in life seems to be entertaining (?) the Synergist staff after school; we knew things were getting rough when Anthony brought out his clarinet at Walt's insistence. Walter expects to pursue a career in the military, concentrating on communications. Without his strong argumentative ability, Science High will be minus a challenge. Hey, Walt, how many English classes *do* you have?

Radio Operators Seminar, NJIT 9; Softball 11, 12; Prom Committee 12; Debating Society 12.

JACQUELINE SMITH

Pinky

To each his own.

Jacqueline will be asking all of the questions in the future, once she has established herself in psychology. This future psychologist occupies some of her spare time by engaging in a competitive game of volleyball with friends, one of whom is Debra Fleming. If you attempt to puzzle Jacqueline, she is apt to say, "For Real?"

Explorer's Club 10; Planning Committee 11.

JANICE MARIE SMITH

Janet

If you keep trying, you will succeed.

Janice can be found in the halls when not in class or in the second floor senior/faculty lounge. She intends to pursue a career in law. In her free time she enjoys playing basketball, tennis, and volleyball. Her friends Tina, Debra, and Sharon can attest to the expression of disbelief she usually responds with when they inform her of their latest exploits: "For real?"

Latin Club 10.

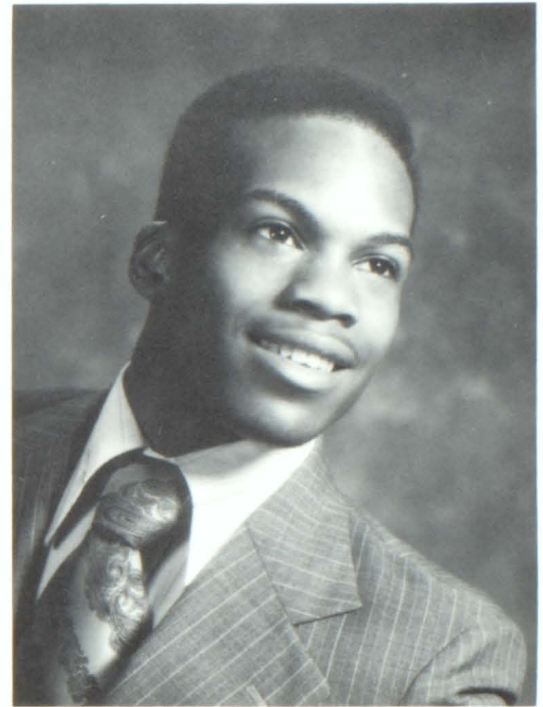

KEVIN DALE SMITH

Kev

May the funk be with you.

Kevin can always be found in Mrs. Hand's office or the halls. His chief interest is electrical engineering, but his favorite company is the Bomb Squad. Kevin also enjoys basketball, and has become a favorite DeeJay for senior parties. When not arguing with Walter over professional sports, Kevin's head is into math and science, subjects in which he excels.

Intramural Basketball 9, 11, 12; Explorers Post 10, 11, 12; Guitar Club 9, 11; Aviation Club 11; Stevens Institute of Technology, Advanced Math 12.

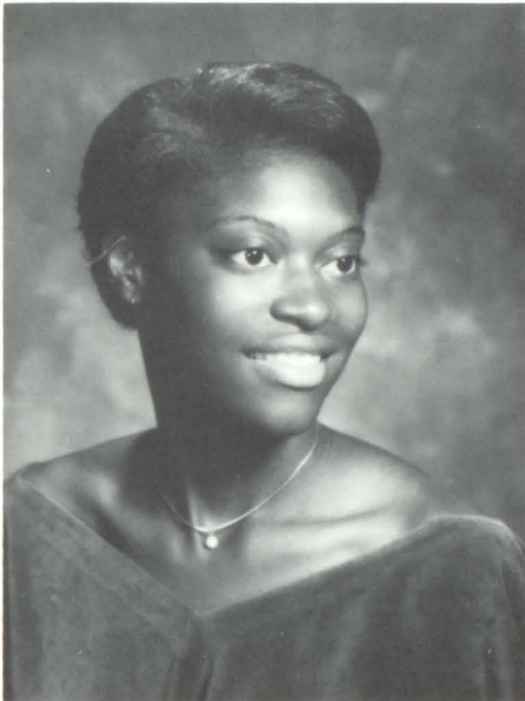

Linda Darlene Smith

Lynn

The best graduating class is the class of '80!

Undecided about her future, Linda presently enjoys basketball and volleyball. She often greets you with a "Hey!", when you encounter her in her favorite location, the gym. Linda tends to be quiet and friendly. She associates with a variety of people at Science High, but included are always Rochelle, Cassandra, and Annette who attended West Kinney with her.

Essex County College Upward Bound 10, 11, 12.

STACEY SMITH

Hassanah

It's better to have loved and lost, than never to have loved at all.

This young lady intends to succeed in each and every one of her future goals because she has the determination to do so. Volleyball is her favorite sport. Among her friends at Science High are Adrian Gill, Sissy, Asia, and Eddie. If you wish to locate Stacey between classes, she is usually conversing with friends in the second floor lounge.

DULCE MARIA SOARES

What is hard to obtain, you desire the most.

Business administration is the occupational field Dulce has chosen to pursue as a career. If you look into the guidance office, in all probability, you will discover that Dulce is in there relaxing between classes. When she is in a state of disbelief, one can often hear her exclaim, "Say what?!" Crocheting and swimming are the favorite activities of this quiet and reserved young lady.

Aviation Club 12; National Honor Society 11, 12.

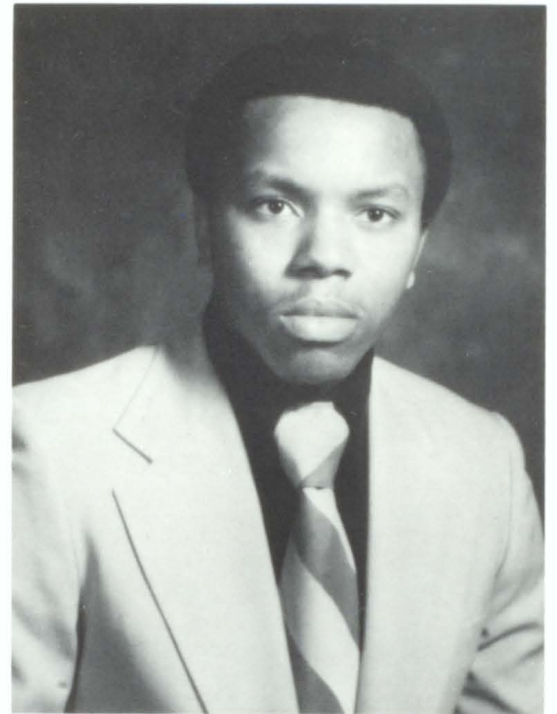

GREGORY BERNARD SPANN

Block

Study as if you were never to master it, as if in fear of losing it.

Although Greg enjoys such sports as basketball, baseball, and bowling, he *loves* sporting the ladies at the social scenes. His future involves either engineering or social work. He roams the halls with the "Squad," but especially Hollywood. Greg will be remembered for his outstanding hustle on the basketball court — and by more than a few for his lingering after the games. Greg talks to a lot of people and his favorite response is simply, "Take it as you wish."

BONNIE VALISSA SPEARMAN

Bon

A teacher that is too wise to learn is marked ignorant.

Bonnie is such a jovial character that she could laugh in the face of disaster and cause him to chuckle too; her favorite phrase, "Deport the administration!" Bonnie enjoys the atmosphere that the locker room, Fatimah, Jackie, and Lisa project. Bonnie aspires to become a psychologist.

Variety Club 9; Chorus 9, 10; Future Physician's Club 9; Drama Club 10, 12; Student Council 10, 11; Central Basketball 11; Upward Bound 11, 12; FBLA 11; Modeling Club 12.

PHYLLIS DENISE SPEIGHTS

Phyl

Phyllis intends to continue her education at one of the colleges of Rutgers University in New Brunswick, eventually completing her graduate degree in pharmacy. At Science High, Phyl's favorite location has been "in class." Her friends include Vickee and Diane, but she socializes with mostly everyone. Phyl's favorite activity is volleyball, and when we asked her to list her activities, she responded that there were "too many to fit on the paper."

Volleyball 11, 12; Softball 11, 12.

DAMON TERRY

Wizard

Dreams: Always believe in dreams, because if dreams die, it is like a broken winged bird that cannot fly.

Damon's favorite location is the lunchroom where he enjoys conversing with females, and at the gym, where he spends his time with basketball. His friends include Alphonso, Hassan, and Darren, with whom he can be found harmonizing some of the old songs. Damon is a rapper whose lead question is usually, "How long have you had this problem?" The responses take up most of his time.

Basketball 10, 11, 12.

BERTRAM KEVIN THOMAS

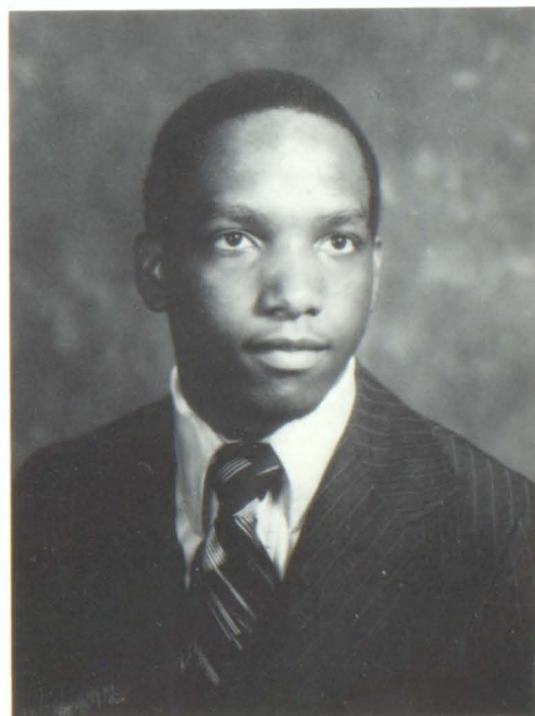

K.T.

I hope and wish that the whole Class of '80 becomes successful in whatever they do in life; I also hope we can reunite yearly. Good luck.

K.T.

Kevin would like to go to college, become a wildlife biologist, be very successful, and help others of all races and creeds "come together." Certainly a tall order. K.T. spends most of his free time in Mrs. Hand's office, usually at her desk. Whenever we hear, "Hey, amigos," we know that Kevin is nearby. He is usually with Miguel, Bonnie, Reggie, Eugene, Harold, Mischa, Chona, Debra, and Kim.

Band 10, 11, 12; NJIT Upward Bound 11, 12.

MISCHA LYNN THOMAS

Mish

Think! For the penalty of the crime is none.

Mischa's aspirations point her in the direction of the field of medicine. Surely her strong character will serve as an asset and aid her in achieving her goals. You can hear her exclaim, "Hey, girl," as you pass by the locker room each morning. She is actively involved in most of the senior class activities and keeps physically fit by twirling and playing volleyball, tennis, and softball. Kenney, Dique, Chantrey, Chona, Darryl, Ness, and Dee-Dee are her favorite companions.

Fashion Show, Chairperson 11, 12; Planning Committee, Chairperson 11; Softball 11, 12; FBLA 11; Volleyball 11, 12; Student Council 11; Class Activity Committees 12; Twirler, Central 12.

REGINALD KRAIG THOMAS

Mountain Man

Reginald plans to work hard towards becoming a successful architect. The future senior classes may be fortunate enough to have Reginald return to Science High with the intention of redesigning the building. You may find him in Mrs. Hand's or Ms. Oppel's offices, yet you may not. His favorite activities are basketball and . . . ? Reginald is more than likely to be seen with his comrades, members of the Almighty Bomb Squad, than anyone else.

Basketball 10, 11, 12; Essex County College Upward Bound 11, 12.

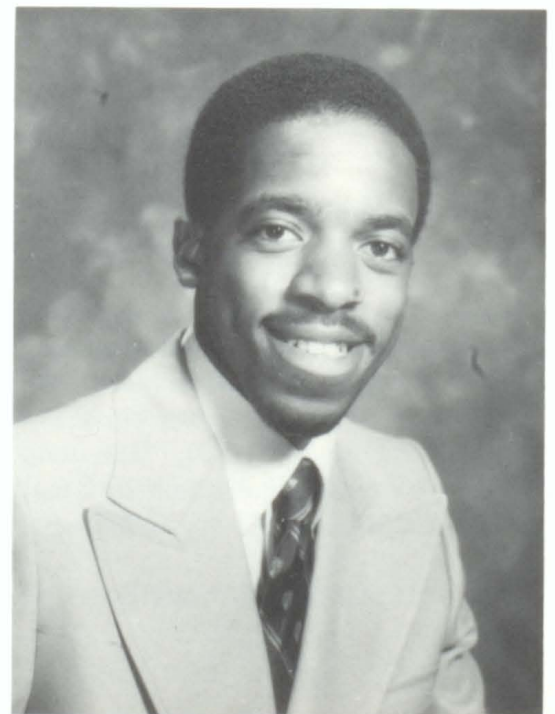

VAN THOMPSON

Slow

Van would like to become a successful commercial artist. We call him Slow, because that's exactly the speed at which he operates — except on the basketball court. He enjoys Terry's company and hanging with the Bomb Squad. Van has been a key player for the Class of '80 in all intramural sports. Basketball is his favorite, and ours to watch him play; Van has that special "touch" with his shots, as well as being an aggressive defender. Hey Van, how come you never told us your first name?

Basketball 9, 10, 11, 12; Softball 11, 12.

MICHELLE DELORES TRUITT

Chely

Do unto others as others do unto you.

This future aeronautical engineer or astronaut likes to travel. When not traveling, she enjoys being alone, in her favorite location, her closet. We're sure those who know her have heard her utter, "I told you so," many a time. She especially enjoys Robert's company, but when he's not around she will be content to be with Eric, Ronny, Reggie, Lisa, Michelle, Bonnie, Mark, Kim, Jacquetta, and James.

Student Council 9, 10; (MS)², Phillips Academy 9, 10; Explorer's Club 10, 11, 12; Aviation Club 10, 11, 12; President, Class of 1980, 11; National Honor Society 11, 12.

BRIDGET RENEE VENABLE

Jellyroll

To thine ownself be true.

Bridget's ambition is to be a certified public accountant. She has no favorite activities or company because she is a well rounded person. She enjoys various activities and the company of everyone. If you hear, "Got a quarter? . . . turn off the light!" you can be sure Bridget is in the vicinity, usually at the phone booth.

ELIZABETH ANN WALKER

Liz

If you reach the end of your rainbow, don't be surprised if there's no one there to greet you.

Elizabeth loves to read, disco, camp and write creatively. This future newscaster or newspaper reporter can presently be found in Mrs. Hand's office. In character, she appears to be very friendly and sociable. Elizabeth can be quoted as saying, "I'm serious," in an attempt to verify something that seems incredible. She associates with a variety of people, but enjoys the virtue of solitude.

Aviation Club 11; Latin Club 11, 12.

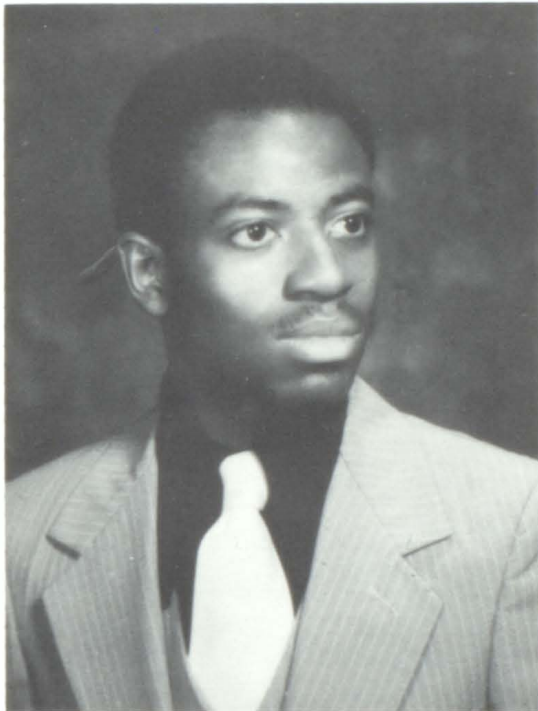

ANTHONY WILLIAMS
Tony

If a man does not keep pace with his companions, perhaps it is because he hears a different drummer. Let him keep step to the music which he hears, however measured or far away.

Henry Thoreau

Anthony enjoys reading and the company of David, Michelle, Ed, Michelle, and Jacquetta. He intends to further his education to enter law or chemical engineering. His quoted remark is usually, "Yeah, I know, I know . . ." to almost everything. His extensive involvement in all activities is a testament to the contribution he has made to this school. He is the Salutatorian, as well as the *only* National Achievement Semi-Finalist in Newark in 1980.

BRADFORD CRAIG WILLIAMS
Brad

The chance of the buttered side of the bread falling face down on the carpet is directly proportional to the hunger of the individual as well as the cost of the carpet.

Brad plans to become a professional athlete. This seems fitting since his favorite activity is playing baseball, baseball, and baseball! He can be found in Mrs. Hand's office saying anything discriminatory about anyone, all in jest. His company includes Michelle, Phyllis, Greg, and Anthony.

Central Baseball 10, 11, 12; Softball 11, 12; Basketball 9, 10, 12.

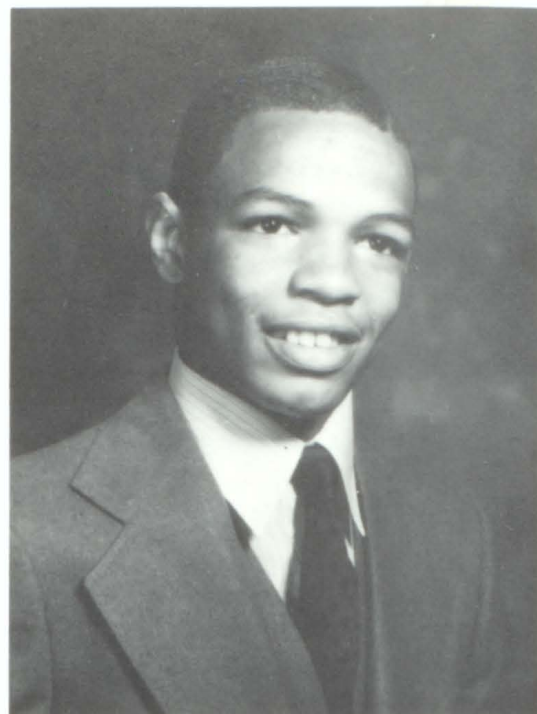

DARRYL LANE WILLIAMS

Duck

Do unto others, then leave.

Darryl wants to enter the field of accounting. He enjoys the atmosphere of the locker rooms while in the presence of Mischa, Chona, Chantrey, Milton, Walter, and Aaron. Duck had a taste of glory during the football season on Central's Varsity with a key drive toward victory in the Thanksgiving Day game. We were proud. DECA Club 12.

HAROLD HASSAN WILSON, JR.

Hass

To be or not to be . . .

Harold would like to be a lawyer and a football star. The latter seems appropriate because his favorite activity is football; Hass was a linebacker for Central's Varsity these past three seasons. As a transfer from Essex Catholic, Hass adapted quickly to Science High. He enjoys being in the "big apple" and, when in school, the company of Damon and Buddha. When not in class, Hassan is in the halls or the cafeteria rapping; his usual comment: "Freak me out, will you!"

Central Football 10, 11, 12.

PATRICE LENAE WOOTEN

Patti

Liberty of thought is the life of the soul.
Voltaire

Patrice simply wants to be successful. She enjoys being anywhere "but Science High." After spending four years here, "*please*" and "I hate you," emerged as her favorite expressions. Patti is one of the five who are enamored with R.S.V.C.; she also enjoys singing and softball. Patrice can always be found in the company of THE Clique: Mick, Deborah, Debra, and Keat, and Gilmore and Kit-Kat. We will remember her for her intensity in school and her humor away from the work.

Hot Stuff, Baby Ali

To err is human, to forgive is divine.

Stacey tends to be extroverted in nature. She enjoys modeling, dancing, skating, and softball. As a result she spends a great deal of time at fashion shows, discos, and skating rinks. Her goal is to be either a flight attendant or a record promoter. Carlene Brown, her mother and father, and Norman Richardson are her favorite companions. If you hear, "Hey, what's happening?" then Stacey is in the vicinity.

Modeling Club 9, 12; Softball 11, 12.

SYLVIA ANN YATES

Syl

If you love something, set it free; if it comes back to you, it's yours; if it doesn't, it never was.

When with Felicia McKenzie, Keith Dowdell, or Melvin West, Sylvia is at her best. She likes playing volleyball and telling people to "Cool out." With college in mind, she has begun to prepare herself for a job in the field of architecture.

To THE SCIENCE HIGH
CLASS OF '80:

Never have I experienced so
much joy, pain, sorrow,
happiness, depression,
aggression, achievement, or
LOVE in so short a time. When
you think of the four years we
have been together and what
changes we went through, you
would probably wonder if it
really all happened. I wish my
fellow class mates all the luck in
the world, for every member of
the Science High Class of 1980
deserves it!!! My quote to you "If

you love something, let it go; if it comes back, it's yours; if it doesn't, it never was." Deep in my heart I hope to see every member of my senior class again in the future because *YOU* are "the love of my life."

If we — and now I mean the relatively conscious whites and the relatively conscious blacks, who must, like lovers, insist on, or create, the consciousness of the others — do not falter in our duty now, we may be able, handful that we are, to end the racial nightmare, and achieve our country, and change the history of the world.

James Baldwin
1962

Almost twenty years later, let that be your constant summons: to change the history of the world.

My very best wishes as you pursue your dreams.
Godspeed, *best* class.
